### Yardage Marketing System at Edgmont Country Club

Two hundred nine (209) yardage markers were added to the sprinkler heads on the course and the practice facility. The following guidelines will help you determine your distance to the green.

- 1) The yardage on the fairway markers are to the center of the green.
- 2) The yardage on the tee markers on the par 3s are front edge, middle & back edge.
- 3) The sprinkler heads on the par 4s are marked between approximately 50-200 yards
- 4) The sprinkler heads on the par 5s are marked between approximately 50-250 yards
- 5) The distance between the fairway sprinkler heads is approximately 25 yards.
- 6) All distance are straight line measurements and do not account for elevation changes.
- 7) All distances were determined by using GPS data.
